4. Salvation:

28 people confessed the Lord Jesus christ as their Lord and savior for the first time. They became born again Christians! Hallelujah!

. ALL the 368 Orphans& staff at Hands of Love orphanage & school received a special meal.

Such a meal for all the children is not served daily! This means a lot to the children and staff.

8. Drugs for the Medical Center.

Some drugs were put in our medical center.

9. The National Radio Ministry on Tuesday for 60 Minutes:

We hosted the Women empowerment team on our National Radio Ministry on Tuesday 25th May. This programme is received live by at least 30 Million people in the various villages of Uganda.

Every Tuesday at 9.30 Pm in Uganda, people will be hocked to their small radios all throughout Uganda to listen to the SUCCESS WISDOM; the Biblical principles that we share with the Nation.

This Tuesday was very unique with over 9 people in the National Radio studio! I asked the guests the single answer that they thought was the remedy for the huge problems faced by most Ugandans on a daily basis? Powerful biblical answers were given and powerful prayers made for 12 callers that represented the Nation. Our scripture is still is Mathew 19:26.

The Powerful testimony of Norah Church served the teenagers and single ladies of Uganda in very many ways as Nora's testimony is filled with a special power and reality that makes it very easy for all to apply to individual lives.

Nichelle's story of an abusive relationship helped very many ladies to know how they could also be redeemed from abusive relationships. This is a very big problem in Uganda especially with the many cultures that does not respect women!

Laray scot's emphasis on the importance of Education and the the danger of AIDS was very timely and so helpful.

As many of you may already be aware, 99% of the orphans we have in Uganda are a result of HIV/AIDS. Many more people are infected and affected with this Killer!

The vision of our ministry is to Educate & Empower next generation National and international Leaders.

With Education, and an HIV/AIDS free generation, Uganda is able to rise out of this abject poverty, terrible diseases and backwardness.

No body who attended all our conferences can doubt that Tevia Wiggins is not an Evangelist and an Apostle to the nations! The unique Spirit upon her set many people free.

I have known Anna Latshaw & Lisa Moore now for some years. As a servant of God, i concluded that it is God who spoke through them. God spoke His Word- the timely word for the HOUR!
